

## 2019 Furlough Relief: Skip-A-Payment

Due to the furlough for many Federal government employees, Heart of Louisiana Credit Union wants to help lighten the stress for these families. Any member currently on furlough because of the government shutdown can choose to skip a loan payment for their existing consumer loan(s). Simply provide proof of your federal employment and we will take care of the rest!

Interest will accrue during the deferred period which will increase the term of your repayment period and the amount of interest you will pay over the life of the loan.
